

# DENTAL X-RAY POSITIONING MASTER CLASS

---

**Recorded** - Recording of your live coaching session will be provided

**RACE approved** - Live class is RACE approved for 3 CE credits for technicians and veterinarians

## IMPROVE YOUR DENTAL X-RAY POSITIONING SKILLS THROUGH THIS COMPLETE PACKAGE

### Dental X-Rays are more like an art than a science!

Dental X-Ray Positioning is my most requested course. The online course is designed with several segments to ensure that participants can build on their skills. Jennifer Hertzoff, CVT shares all of her tips and tricks on how to get full-mouth diagnostic dental x-rays quickly and easily.

### Online Positioning “Master Class”

\$625.00 (\$649.00 value)

### This complete course has several portions:

- A) **1 hour - On-Demand Introduction to Dental X-Ray Positioning**
  - Watch this one first
  - Video of me conducting an entire positioning class
  - I use skulls to explain and demonstrate every angle for a dog and cat
  - Proper image orientation, step-by-step positioning instruction and troubleshooting tips
  
- B) **20 min - Live Dog and Cat Demonstration Video**
  - Jennifer Hertzoff, CVT performs full mouth dental x-rays on a dog and cat
  - Video with instructions for each shot
  
- B) **45 min - On-Demand Powerpoint**
  - Reinforcing points covered in the instructional course and explained in more detail
  - Equipment needed
  - Radiation safety
  - X-ray orientation - Left, right, upper, lower
  - Pictures and description of every angle
  - Troubleshooting tips
  
- C) **3 hrs - Live Coaching Session**
  - 2 hours - dog, 1 hour - cat
  - In this interactive class, the participants will practice taking full mouth x-rays
  - Knowing how to fix mistakes is half the battle
  - I watch participants take x-rays on skulls or cadaver heads
  - Clinic needs to have:
  - Real medium dog skull, adult cat skull and 4 play-dough containers
  - Laptop or iPad with video and sound - (On Mayo stand with wheels is recommended)
  
- D) **Dental X-Ray Positioning Guide**
  - Pictures and descriptions of every x-ray for dog and cat
  - This is a great reference to remind viewer about positioning
  - Digital Download**
  - Physical copy mailed**
